

Mohamed Hossam Mohamed Abu Elftoh

Software Engineering Student - Aspiring Front-End Developer

Cairo, Egypt - eng0mohamed0hossam5@gmail.com - +20 103 354 4424 - linkedin.com/in/moh-hossam - github.com/Eng-MohamedHossam

PROFESSIONAL SUMMARY

Third-year Software Engineering student at Egyptian Russian University specializing in front-end development. Experienced in building responsive web applications using HTML, CSS, and JavaScript, including the complete front end of a collaborative full-stack project. Strong foundation in Object-Oriented Programming, Design Patterns, Data Structures, Algorithms, and Agile methodologies, with ongoing full-stack training through Route Academy.

SKILLS

Front-End: HTML5, CSS3, JavaScript

Programming: Python, C++

Software Engineering: OOP, Design Patterns, Data Structures & Algorithms, Agile (Scrum)

Tools: Git, GitHub, Jira, Figma

Soft Skills: Problem Solving, Communication, Team Collaboration, Time Management, Adaptability

Languages: Arabic (Native), English (B2 Upper-Intermediate — British Council Certified)

PROJECTS

Skill Swap Platform · Front-End Developer · Team Project

2024

- Developed the complete front end of a skill-exchange platform that allows users to earn points by teaching skills and redeem them to learn from others.
- Collaborated with a back-end developer to integrate front-end interfaces with server-side functionality and database operations.
- Built responsive layouts and reusable UI components supporting desktop, tablet, and mobile devices.
- Applied semantic HTML, modular CSS structure, and accessibility-focused design principles to improve maintainability and user experience.

GitHub: github.com/Eng-MohamedHossam/skill_Swap_Site *Stack: HTML · CSS · JavaScript · PHP*

Personal Portfolio Website · Solo Project

2025

- Designed and developed a fully responsive portfolio website from scratch without using frameworks or external libraries.
- Implemented dark/light theme switching with persistent user preferences.
- Built interactive features including scroll-triggered animations using Intersection Observer, animated skill bars, filtering functionality, and a typewriter effect.
- Integrated a custom Canvas particle network animation and advanced CSS techniques such as glassmorphism and CSS custom properties.
- Optimized layouts for mobile, tablet, and desktop viewing experiences.

EDUCATION

B.Sc. Computer Software Engineering · Egyptian Russian University (ERU) Sep 2021 – Jun 2027 (Expected)

- Faculty of Artificial Intelligence – Software Engineering Department.
- Relevant coursework: OOP, Design Patterns, Algorithms & Data Structures, Software Engineering Principles, Agile Methodology, Computer Networks, Database Systems.

CERTIFICATIONS

Python Programming Certificate — Huawei Technologies

2024

English Communication Certificate (B2 Upper-Intermediate) — British Council

2025

C++ Professional Course Certificate — Information Systems Institute (ISI), Egypt

2021
